SPARK LAB AT THE MUSEUM

On Saturday we all put our thinking caps on and went to explore the Museum and Spark Lab at Southbank. We loved all of the interactive displays and were surprised at the effort it takes to lift yourself using a pulley system. We were able to experiment with electrical circuits, play with shadows and engage our creativity and curiosity through a number of hands-on activities. We all found something fun to try and afterwards we visited the museum to check out their amazing displays.

CRAFT HAVEN

On Sunday, our creativity got away with us when we visited Craft Haven and we didn't get a chance to take many photos as we were all consumed with concentration as we planned, chose, created and painted our own masterpieces. We took a treat detour on the way home and had maccas for lunch, yummo!
